

FRR – How to Declare a Climb Portal Activity

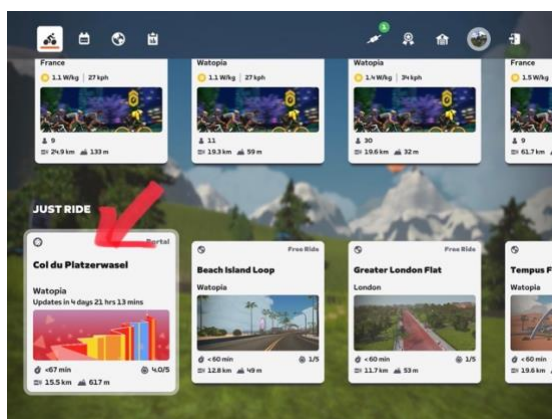

Why?

The Zwift Gods have given us the portals but we cannot use them in an event that we can track, however we are trying something different as FRR always likes to 'try' and spice things up....

But it does require riders who are interested to do a little bit more than just turn up and ride.... Sorry!

Climb Portal Route

Zwift now provide a dedicated climb portal option at the bottom of the Route selection page before you start Zwifiting. Scroll to the bottom of the page and select the option under 'Just Ride' you will be transported to the lead in and directed to the climb.

Event Format

1. Events with a Climb Portal additional will be referred to as E+ events.
2. We will race an event as normal and complete it. The event may be slightly shorter as the combined time for the event and portal route needs to stay within our expectations for this series.
3. FRR Schedule, Website Home page, Facebook Event Group and Discord will communicate a week in advance the Climb Portal route to be completed **IMMEDIATELY after** the event you choose.
4. Upload your completed segment time as soon as possible, but no later than 2300UTC Saturday this is to allow us to fully process results early Sunday
5. Riders who fail to submit a time will be allocated the default time for the climb as determined by FRR.
6. Once entered - riders will earn Polka Dot points for the climb segment plus the segment time will be added to the riders' overall event finish time.

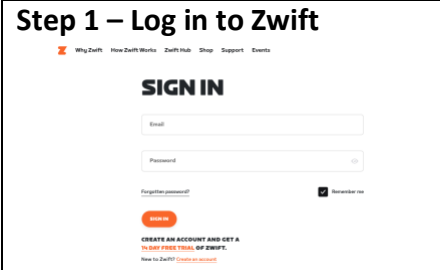

The following steps explain how a rider can obtain the relevant information to complete the climb declaration.

Help

FRR – How to Declare a Climb Portal Activity

As always any problems then please contact Race Control via email or Discord and remember we are trying this out as there is no other way for us to collectively race a Climb Portal route and obtain the results....

Thank you for taking the time...

Step 1 – Log in to Zwift 	Step 2 – Locate Your Activity Feed Click on My Feed then click on Just Me 
Step 3 – Find Your Climb Portal Activity and open it Scroll down your activities listed by completion date when you see the Climb Portal activity (should be at the top or close to it) then click on the activity to open it 	
Step 4 – Locate your activity reference Your activity reference is shown as below, copy the full reference to paste into the FRR Website it should look like this https://www.zwift.com/uk/activity/1384972695225008128 	
Step 5 – Find your Climb Portal Time Zwift takes a screenshot at completion of the segment, screen shots are shown at the bottom of the activity page. Click the FIRST screenshot to reveal your time. 	Step 6 – Get your segment time Your segment time is highlighted enter this into the FRR website 

FRR – How to Declare a Climb Portal Activity

Declaring your Climb for FRR processing

Login into FRR website

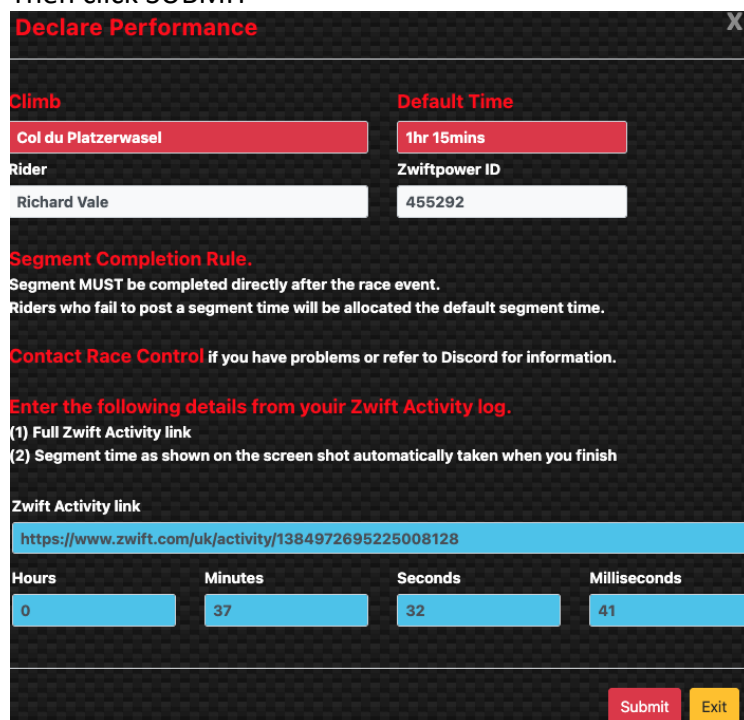

You will see a *new menu option* - 'DECLARE CLIMB' click this to open the input screen.

Complete Input & SUBMIT your time

- 1 – Paste your Zwift activity link from step 4
- 2 – Enter your segment time hours, minutes, seconds, milliseconds
ie. For my climb.
Hours = 0 Minutes = 37 Seconds = 32 Milliseconds = 41
- 3 – Enter the Watts of the ride

Then click SUBMIT

A screenshot of the 'Declare Performance' form in the FRR website. The form has a dark background with red and white text. It includes fields for 'Climb' (Col du Platzerwassel), 'Default Time' (1hr 15mins), 'Rider' (Richard Vale), and 'Zwiftpower ID' (455292). There is a 'Segment Completion Rule' section with instructions. Below that, it asks for 'Zwift Activity link' and provides a sample URL. At the bottom, there are input fields for 'Hours' (0), 'Minutes' (37), 'Seconds' (32), and 'Milliseconds' (41). There are 'Submit' and 'Exit' buttons at the bottom right.

Once you declare your time and SUBMIT the declare option will disappear. Declarations can be seen on the Leaderboard on a new list option titled 'Climb Declarations' any mistakes then please contact race control for amendments.

Riders who do not submit a time will be awarded the default time for the climb which should much longer than PEP class....
