

**FRR Super 6IX Team Racing**  
**Fun – Fast – *Competitive Racing***  
**For Everyone**

**Mission – Aim - Objective**

FRR Super 6IX Team Racing is a race series that is nothing like anything else offered. We have built a new and engaging team racing experience for the autumn/winter months that will work alongside the core FRR 'Tours'. The series will challenge and engage individual riders and teams – and we are aiming at an Elite level too.

All classes of rider will have the same opportunity to race in a fair environment, where they will feel wanted, involved, and have a purpose. All riders and teams will be supported by the organiser and the community.

We are excited to unveil the full concept of Super 6IX Team Racing, with leeway for improvements. We are happy to answer your questions and hope you will be as keen as we are to see the concept flourish into one of the best virtual Team Racing experiences.

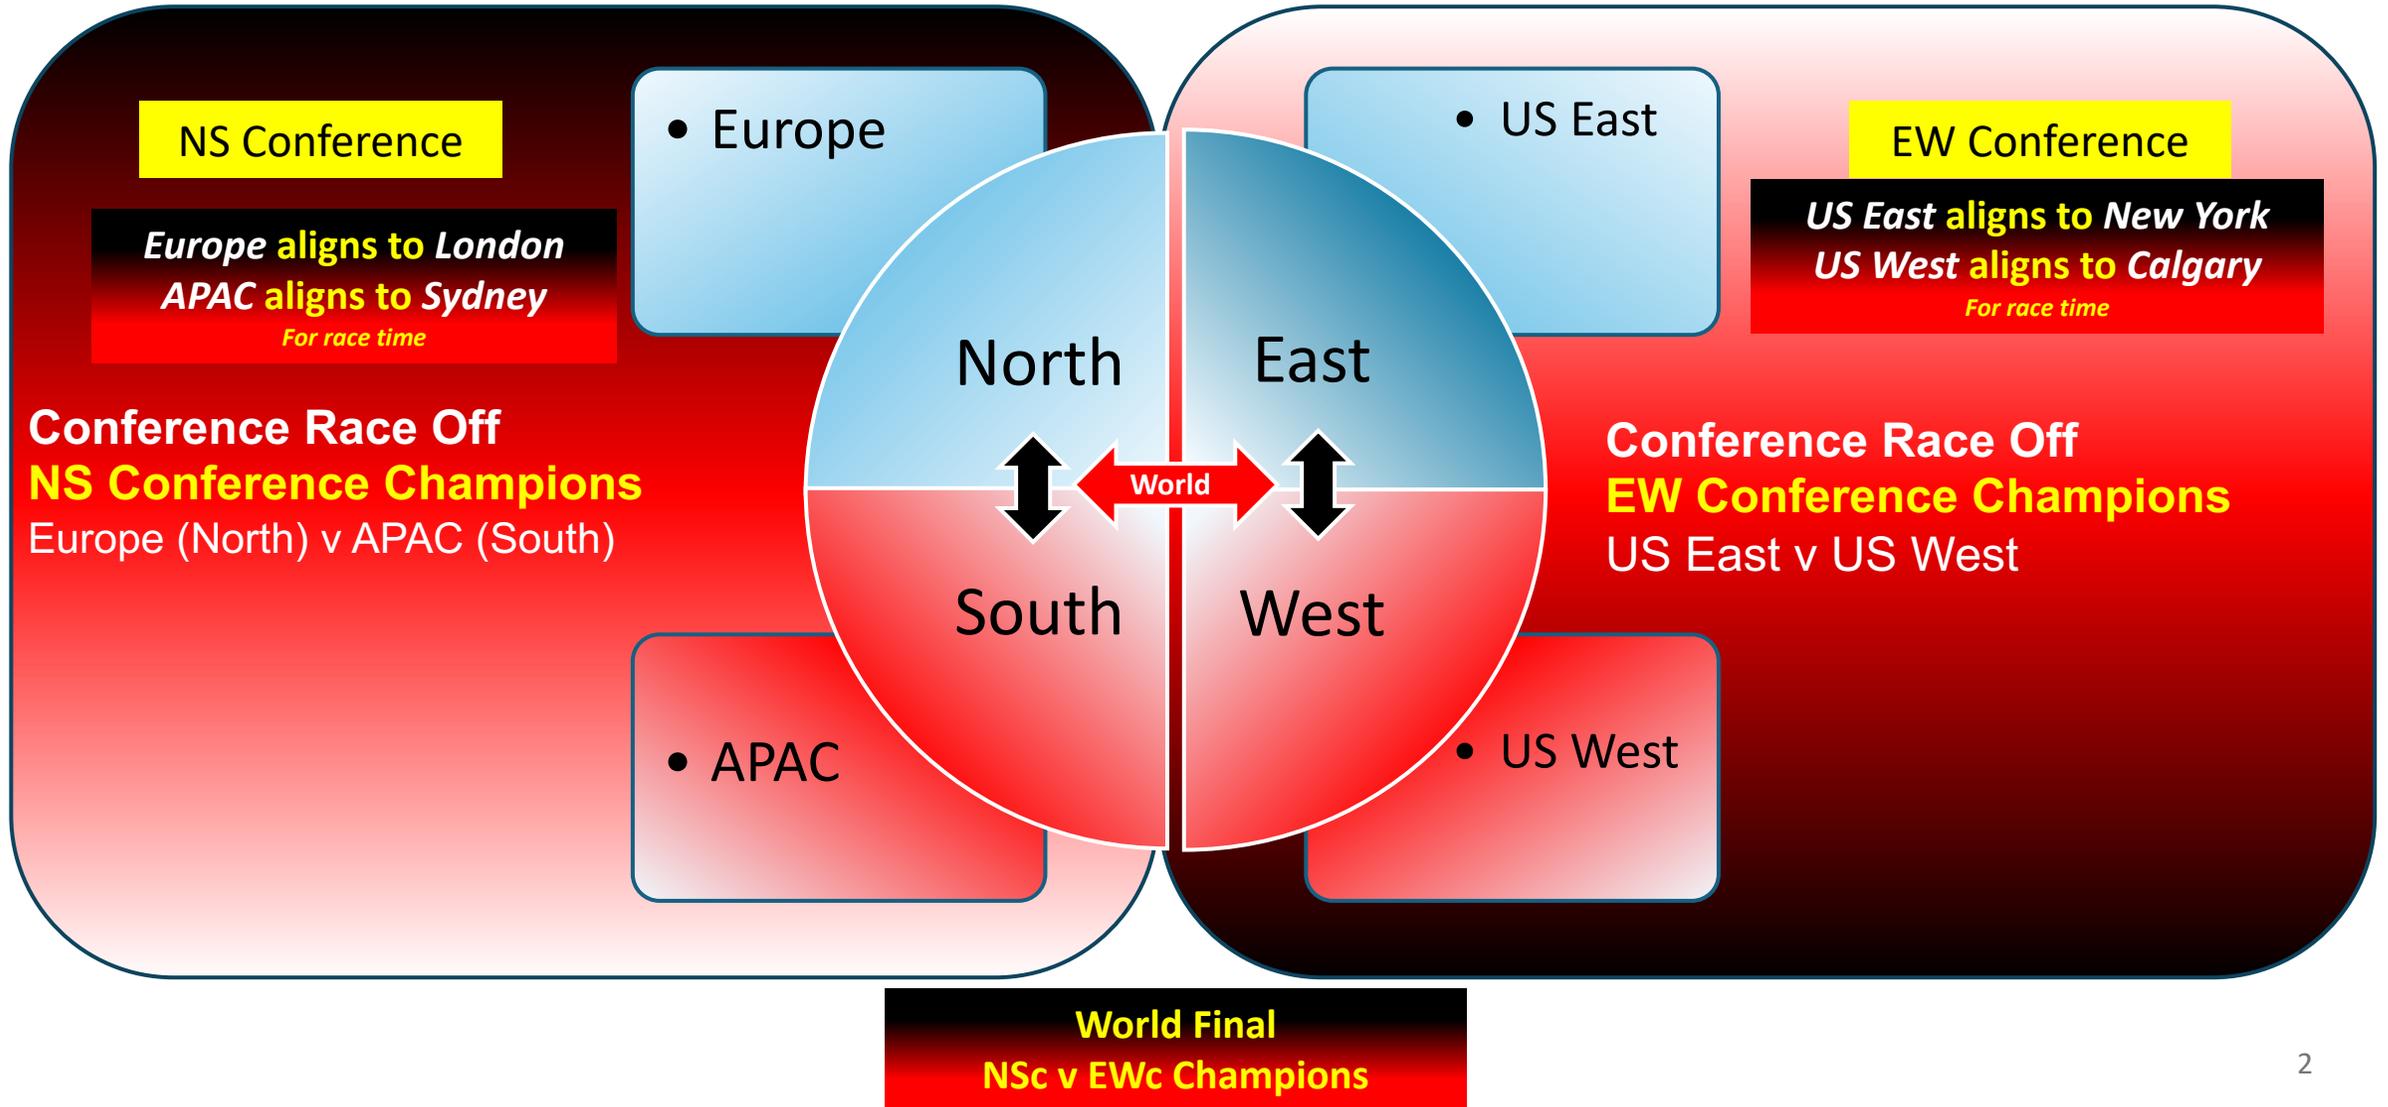

Rome wasn't built in a day but it did start on one and that day is Today!

## Concept

Over the next period we will be reviewing an ELITE racing option for Men and Women by asking the group what they would want for a winter League – it's a blank canvas...

You don't have to be a 'pro' to be involved however to ensure a fair playing field ALL riders will need to meet the entry requirements as this is not 'community racing'...

We appreciate there are many different aspects to cover so we are connecting to the riders and managers to see if we can do something to help as I feel the organisation and care of FRR could bring them something more than they have experienced to date in virtual racing and training as they prepare for the outside.
